Full offering from ore to metal

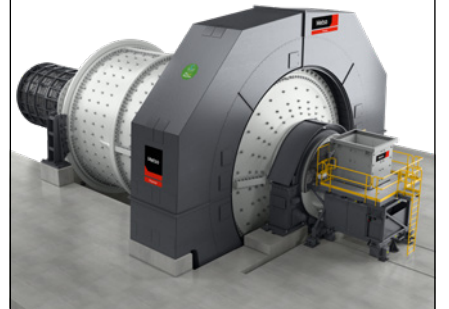

1. Crushing

- Primary gyratory crushers
- Cone crushers
- Jaw crushers
- Impact crushers
- Mobile and portable crushers

2. Screening

- Horizontal screens
- Inclined screens
- Ultrafine screens
- Banana screens
- Mobile and portable screens

3. Grinding

- High Pressure Grinding Rolls (HPGR)
- Stirred mills
- Horizontal grinding mills

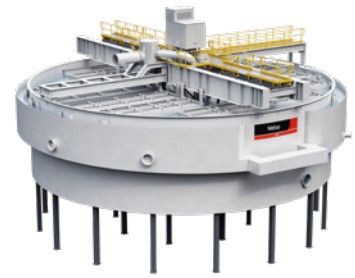

4. Slurry handling

- Slurry pumps
- Slurry hose and pipe systems
- Slurry valves
- Hydrocyclones

5. Flotation

- Mechanical flotation
- Pneumatic flotation

6. Thickening and clarification

- High Rate Thickeners (HRT)
- Inclined Plate Settlers (IPS)
- High Compression Thickeners (HCT)
- Paste Thickeners

7. Filtration

- Pressure filters
- Polishing filters
- Vacuum filters

8. Hydrometallurgy

- Solvent extraction
- Electrowinning
- Electrorefining
- Precipitation

9. Materials handling

- Conveyors
- Feeders
- Haul truck bodies

Your #1 service partner from pit to port

We carry the industry's most comprehensive aftermarket offering, and it's not limited to Metso equipment.

You set the target. We provide the solution.

Comprehensive service portfolio

- Life Cycle Services
- Process optimization and connected services
- Retrofits, upgrades and modernizations
- Advisory services
- Training programs

Spare and wear parts

- Parts and accessories for the entire mining process chain
- Mill liners
- Wear lining
- Haul truck liner
- Screening media

Sustainability

Enabling sustainable modern life

Climate change is a global challenge in which Metso can play a key role together with customers. Therefore, a significant part of our sustainability efforts is focused on combating climate change.

Planet Positive's portfolio of more than 100 sustainability solutions to help our customers:

- Energy efficiency
- Carbon efficiency
- Optimized for using renewable energy
- Water efficiency
- Less pollution
- Reduced embedded carbon
- Electrified solutions

Analyzers and automation

Digital solutions to improve efficiency

With Metso's digital solutions, you can optimize plant operations and deliver improved productivity, safety and energy efficiency.

- Advanced Process Control (APC)
- On-stream analyzers
- Digital twins
- Linear metallurgical samplers (LMS)
- Software for measuring and managing production processes

Metso is a frontrunner in sustainable technologies, end-to-end solutions and services for the aggregates, minerals processing and metals refining industries globally. We improve our customers' energy and water efficiency, increase their productivity, and reduce environmental risks with our product and service expertise. We are the **partner for positive change**.
